

COOKIE POLICY

WHAT ARE COOKIES?

Cookies are small text files that hold certain data, which are stored on the hard disk of your computer by your browser. They make sure you are able to browse the internet with more ease and more speed.

HOW DO WE MAKE USE OF COOKIES?

The Natlab website makes use of cookies to optimise the internet traffic and to recognise you when you visit the site again in the future. Cookies enable us to gather information about the usage of our services and to improve them to the preferences and wishes of our audience.

The Natlab website makes use of functional, analytical and social media cookies.

- Functional cookies
These cookies ensure that our website is working properly. This includes but is not limited to the cookies for the search bar on the website and the cookies that make sure that you can view our website on your screen in an optimal way.
- Analytical cookies
With analytical cookies we gain insight in the usage of our website by our audience. The Natlab website makes use of Google Analytics. With this program we are able to do research in the way the site is being used, which allows us to improve the user experience. Google is able to provide this information to third parties, but only if it is obligated to do so for legal reasons, or when these third parties process the data for Google. We, as a company, do not have any influence on this. We have not allowed Google to share the obtained information with third parties.
- Social media cookies
The social media cookies make sure you are able to play Youtube or Vimeo videos on our website.

HOW DO YOU TURN OFF COOKIES?

In the settings of your browser, you are able to state that cookies should be denied or that you should receive a notification when cookies are being sent. Please note: Cookies are sent by every computer or browser that you use. If you are using multiple computers or browsers, you will have to repeat these actions for every computer you use.
